

Please preserve my privacy, and most importantly my limited family time, by creating a DO NOT CALL list for all Americans.

As I find myself working longer and longer hours to pay for every social agenda known to man, I have less and less time to spend with my 3 year old son. When I do have a moment to relax, perhaps to enjoy a rare family dinner, it is inevitably interrupted by several phone calls offering me items of usually questionable value.

When I begin to ask these callers to kindly remove me from their list, I am hung up on, or worse, I am cursed at.

Please do what you KNOW is right for the taxpayers of America, and PROTECT our diminishing family time and the few quiet moments we enjoy each day, by creating a NATIONWIDE DO NOT CALL LIST.

Thank you,

Steve Wiley
Rocklin, CA
